BOW ISLAND

Bow Island

The Editor of the Review wishes to extend his deepest thanks to those kind ladies of the United Ladies' Aid who completely surprised him last Saturday by sending over a box of the most beautiful flowers to cheer him up in his sickness.

The Editor begs to assure those ladies that these flowers will always be a refreshing memory to him and that the whole-hearted services of the Review will be at their command.

"It is one touch of kindness, makes the whole world kin."

The Editor also wishes to thank Dr. Cairns for his skill in prescribing so successfully not only for the body but the mind, in removing all cause of fear that it was the dreaded Cancer.

A meeting of the Bow Island Base ball Club was held in the G.W.A.A. Club Rooms on Tuesday April 12th, Mayor Reid in the chair.

The following officers were elected for the coming year:

President Mr. J.W. Reid

Vice President Mr. R.S. Beattie

Secretary Mr. J.B. Jarow

Treasurer Mr. A.C. Gage

Executive A. Swanson, Father

Greene, Dr. Cairns

Team Manager J.J. Brown

Mr. H.R. Roach gave a report of the organization meeting held three weeks ago and the different "By Laws" were gone over and discussed. "A very interesting and satisfactory meeting" was the opinion expressed by everyone attending.

The opening of the season will soon be here and it is hoped that the local Club will get all the support they deserve.

Read the news columns of the "Review" for further announcements.

Address all communications to Mr. J.

B. Garow, Union Bank of Canada, Bow Island.

The Base Ball League meeting was

postponed from last Saturday to the 19th.

Delegates are expected from Foremost, Winnifred, Seven Persons, and Grassy Lake.

We are all glad to see that Mr.

Roach is able to be out again although his arm is still in a sling.

The man Quong who was most

severely injured in the forehead by a stone thrown by boys last Monday, is progressing as well as can be expected.

It is a lucky thing for those

boys that the stone did not kill this man.

Parents should certainly warn their

boys against the great danger of recklessly throwing stones, give the boys

useful work to do to occupy their time, instead of idling away their time on the streets, and then they will grow

up to be really worthy and useful

Citizens of our fair Canada.

Parents should certainly warn their

boys against the great danger of recklessly throwing stones, give the boys

useful work to do to occupy their time, instead of idling away their time on the streets, and then they will grow

up to be really worthy and useful

Citizens of our fair Canada.

Citizens of our fair Canada

Canada's Railway Problem

Canada has a goodly number of problems awaiting solution on her hands at present, but it is doubtful if any one presents greater difficulties, or is fraught with such danger to the country if not solved, than the National Railways. The annual deficit is so staggering—amounting to almost as much as the total revenue of the Dominion only a comparatively few years before the war was increasing rather than diminishing, notwithstanding the heavy advance in passenger and freight rates, that the people have real cause for concern.

Nothing is to be gained now by trying to saddle the responsibility for policies which have resulted in the present deplorable situation, as many party politicians are persisting in endeavoring to do. Each of the two political parties which have guided the national policies of Canada in the past has been responsible for the present condition. They advocated policies and encouraged the building of thousands of miles of all present unprofitable lines, no doubt with the best intentions and in a honest and sincere desire to develop the vast resources of the Dominion. Perhaps, not least of all, the people are themselves to blame because they demanded the construction of these lines, and approved and supported the Government which passed them.

It is no use trying to split hairs. The situation exists, the problem has been created, intensified and made the more difficult because of the war. It must now be faced and a solution found.

That solution is not to be found in political bickerings, but in a united and patriotic determination to get at the root bottom facts. When this is done, it is easy to see that the first important step is to think out a plan of action, and it is clear that a wise operation is necessary, to apply the knife with courage and determination. The same thing holds true of the National Railways. If there is mismanagement waste and extravagance, it must be cut out; if there is a lack of good judgment shown in financial management, or in the operation of the roads, there must be improvement brought about without loss of time; if the service is not up to standard, then the service must be improved and made to command public support.

But it is becoming more and more apparent that these things alone will not have the effect of completely wiping out the annually recurring deficit. First and foremost, all such needed reforms must be effected but there must be something more. The time has come to call a meeting up to the National Railways. To state it concisely, the Federal Government, assisted by all the Provincial Governments, must bring into effect policies that will have the effect of building up Canada and thus build up the National Railways. In other words, the most far-sighted policy must be evolved to encourage and speed up the development for use of the natural resources of the country, and particularly the West.

Only through the development of our resources can business be created in enormous volume to provide that increase in traffic which will put the railways upon a firm financial foundation. Increases in rates up to a certain point, may produce more revenue, but raised beyond that point and the effect is loss of revenue because of an even greater loss of traffic. It is open to question whether railway rates have not already been raised to the point where they are not only a drain on the revenue, but are rather adding to the debt side of the railway ledger.

The statement will hardly be challenged that, at the present time, the Federal Parliament is doing little or nothing towards developing the rich natural resources of the Dominion. Rather it is "marking time" on the question. Ontario, with its development of the hydro system, and Quebec, with its great hydro facilities for power generation, and more recent agricultural development, are doing more for the enrichment of Canada today by the utilization of natural resources than anything the Federal Parliament is attempting. The development of the natural resources of these Western Provinces is largely at a standstill, while Federal and Provincial authorities debate the question of ownership and control of these resources. The provinces cannot proceed to develop them because they have no control over them. The Federal Government is not doing so, pending a decision as to the terms and conditions of transfer of such resources to the Provinces.

In the meantime, until wealth lies dormant, and thousands of miles of railway are hungering for traffic they cannot get because it does not exist because of non-development of the resources of the country, there is little to do but wait. You may protest that you have thought though it lie at a loss because people have located, few in number though they may be, along these railways and they must be served with mails and the means of transportation for themselves and such few products as they have to ship out and such supplies as they require to bring in.

Fair Wage for Farm Labor

Farmers of Alberta Sent Out Questions to Its Representatives

The United Farmers of Alberta sent out a questionnaire to a number of its representative members in different parts of the province, asking them to make a fair wage to farm help this year. The wage is to be \$10 per month and board, and 35 per cent ranged between \$30 and \$75 with board, the majority favoring the lower figure.

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in carbolic acid dressings, which are made by women. Far better to keep on hand a bottle of Dr. Thomas' Emetic, which is a special carbolic acid and does not scar the skin or burn the flesh.

The Chinese, of all people, attach most importance to etiquette, their Book of Rites dating back to the first century before the Christian era.

Big Berry Crop in B. C.

Production Expected to be More Than Fifty Per Cent. Over Last Year.

Five hundred freight cars will be required to move the 1921 berry crop of British Columbia, according to the president of the British Columbia Berry Growers' Association. This means a production of approximately 2,500 tons of small fruits. Production is expected to be more than fifty per cent. over last year, when the crop was \$1,000,000. There is a strong market in the United States for British Columbia berries.

B.C. Pulp for Orient.

British Columbia is being shipped

as a shipment was made to Australia.

Consumers are tied up with long-term contracts.

The extension to Australia is interesting, because, hitherto, the mills have shipped only paper. The effort will endeavor to enlarge the market for British Columbia berries.

Constipation and Sluggish Liver

Do you take chances, Ge Carter's Little Pill, will right now. They never fail to make you feel better do its duty effectively. Carter's Little Pill is a great help in the treatment of constipation, banish those uncomfortable bill-owes, stop diarrhea, clear the complexion and give a healthy glow on the face. Be sure and get the genuine.

Small Pill—Small Dose—Small Price

Dining Room Niceties

BY LORETTA C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management

"Let's drop in here to-night for a bite—this place looks so inviting." Thus spoke a young woman to her host.

Now about the home restaurant—the family dining room. Do you try to have all the niceties of the dining room in your home?

In one home, where no attention was paid to the table d'orangerie and I found some little table cloths, small ones, that fitted the table.

We bought some napkins to match. And we picked out a dozen pieces of plain white chintz.

Then, when half a dozen chairs, fork and spoons in a standard pattern so that it might be ordered in other pieces as need or desire arose.

We bought some stemmed water glasses, and a few pieces of cut glass.

At the same shop we came upon a plain cold green lustre-fern dish.

We had it filled for fifty cents at the florist's with a collection of dainty little ferns.

We selected another dish—two sets of dainty little salt and pepper sprinklers in glass with silver tops.

Later I had occasion to drop into that same home at dinner time. The table was daintily set out. Set.

But the table was surrounded by pink candle in glass holders.

Daughter did the table setting and the cooking of the simple meal, for that was part of the agreement. And appetite had improved many times. And both were so much happier.

There are other folks whose service in the dining room is, perhaps, not quite so much by far as this.

But it might be well to do into the matter. The things are shown so many, many attractive things for the dining room.

One shop is showing an electric percolator that's miles ahead of the old time coffee pot, while some cling to just the old fashioned ways.

It is thought about getting a more attractive, more up-to-date one. Knock over the old things and if you are interested in your home, plan to put it into from time to time some of these dining room niceties.

Miller's Worm Powders will clear the stomach and bowels of worms, so that you will not be troubled by their ravages. The powders are sweet to the taste and no one is liable to any side effects. They are non-injurious in their composition, and while in some cases may not be taken in a sign that they are needed, but as an indication of their effectiveness.

Many Farm Laborers Required.

Between 4,000 and 5,000 farm laborers will be required on Saskatchewan farms, according to a report to the president of the Employment Bureau of Labor and Industries. Al-

ready, 1,500 orders for farm help have been received by the various offices of the Saskatchewan Govern-

ment. These orders have been placed in advance for help that will be required in April, when it is expected seedling will be in

growing.

The Key Industry

Of Highest Importance That The Agriculturist's Occupation Should Be Made Profitable.

The agricultural industry must be made profitable, so that the society cannot afford to see "lose out" on his job. He is pre-eminently the "key industry" that must be kept going, though the rest of the world is temporarily at a standstill. The agriculturist's importance is that the agriculturist's occupation should be made as constantly profitable as it is possible for governmental policy and human invention to make it.

It is, therefore, of the highest importance that the agriculturist's occupation should be made as constantly profitable as it is possible for governmental policy and human invention to make it.

That is, the respect to which the agriculturist's occupation should be made as constantly profitable as it is possible for governmental policy and human invention to make it.

Eight persons were killed and many were injured in La Paz, Bolivia, when Lieut. Baudron, a French aviator, was shot down and his plane exploded.

The Montréal Board of Trade unanimously disapproved of any attempt to stop diversion of wheat from Winnipeg.

The reply of the United States to Germany on the separation question has given the greatest satisfaction to French official circles.

Greek Archaeologists have unearthed an imposing temple at Teos, Thessaly. The structure is in an excellent state of preservation and stands as large as the temple of Jupiter at Olympia.

Minard's Liniment for Sale Every

where

American Farmers For West.

Many American farmers arrived in Winnipeg recently from Iowa, Minnesota, Wisconsin, Michigan, Indiana, Illinois and Wisconsin en route to western ports, the majority of whom emigrated to Canada as a result of having friends in the west.

They claim a large number of farmers in the United States are contemplating coming to Canada as soon as present holdings can be disposed of.

The man whose only thought is for himself has little use for brains.

The latest news in the field of journalism is that the "Daily Mail," which is a broadsheet, is to be reorganized and published from "air mail" in flight.

The "Daily Mail," which is

sponsoring it, says it will contain the latest British and Continental news, political, financial and general, reprinted from the most important English and American newspapers.

""Takes off" and while it is flying, the news being sent by wireless.

A special printing plant has been installed and newspapers will be distributed by means of parachutes dropping in edition into the towns.

It is thought that the first edition will be published for Brighton, Paris and London, as well as for

Paris and London.

Airlanes will leave Paris and

London daily, one leaving Paris

and the one from London pointing in French.

The newspaper will contain

stock market quotations, racing

results and more or less general

information from all principal capitals.

It will have four pages and will contain advertising as well as features.

Men hard at the project say that

the public is so dependent on news-

papers that there is a field for such a newspaper.

They hope that the present news service is to be improved so it can be achieved only by the use of the airplanes.

papers that there is a field for such a newspaper.

They hope that the present news service is to be improved so it can be achieved only by the use of the airplanes.

Erecting Houses For Employees.

Several Edmonton firms have un-

dered consideration the erection of

houses for employees, the number of

houses to be erected to be determined

as soon as the present news service is to be improved so it can be achieved only by the use of the airplanes.

Read what this woman says:

"London, Oct. 2.—In my early married life I was a housewife, but I was

then feeding exceedingly well, and miserable

and I was not able to work.

Then I heard of Dr. Pierce's

Remedies.

After taking Dr. Pierce's

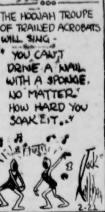

Remedies I was soon

well again.

Now I am able to work again.

continued from back page

Lawrence Collins has just finished grading the road running north and south past their place.

Mr. F. Elford had the two telephone men for dinner Saturday. They claimed that they were going to put a local telephone in around here, which will make it more convenient for the neighbours, besides a great improvement to the district.

Miss Myrtle Elford is expected home from Calgary next Saturday evening. Miss Elford is going to teach Neighbour View School the coming year. We all wish her the best of success, as the last teacher they had here proved a failure.

The Ladies' Circle met last Thursday at the home of Mrs. Johnie Kimmet; they had a great time.

The Tuxis Boys met last Friday evening at Westfield Schoolhouse. Sports for the summer were discussed, and it was decided that the Square called the XL Club of Westfield, would compete with the Tuxis Standard in athletic work. We wish them the best of success.

The Prairie Belles did not hold their meeting at Mr. Shearer's last Friday evening, because Alice Crawford and Esther Elford were the only girls pre-

Good Cheer Topics

Mr. Percy Colthorpe wears a broad smile these days, and claims he since solved the hired help problem since the arrival of his "big baby."

Mr. and Mrs. V. Collins motored to Bow Island on Friday. On coming home their car broke down and they didn't get home till Saturday morning about three o'clock.

There was a nice gathering at Sunday School on Sunday. We have Sunday School every Sunday at Westfield School at 11 a.m. Anybody who happens around are perfectly welcome. We have good music and good singing. Mr. J. Shearer teaches the bible class, Miss Esther Elford takes charge of the intermediate class, and Miss Cora Anderson takes the little folks.

Mr. Albert Elford started plowing last Friday. It is a little too muddy yet to work in the land around here, but if he keeps drying the way it has been lately, there will be quite a lot of work done next week.

Everybody around here is looking for a bouncer of a crop this year, the indications of the opening of spring certainly seem favorable, especially that the rain-maker is coming, we will have to give him the credit whether he does it or not. Don't forget to come to Westfield on Friday, the 8th April.

If you intend to have a sale be sure you leave the date at Review Office, Bow Island, D. M. Garrison, Auctioneer.

WINNIFRED

Miss Lois Colthorpe is boarding and rooming at the home of Mrs. H.T. Luther since her parents moved to Cavendish.

Dr. Cairns of Bow Island was called to the home of Mrs. Percy Colthorpe April 6th, mother and baby doing splendidly.

The U.F.A. and F.W.A. Social given Friday April 8th, proved successful a splendid programme was given as follows:

An address given by Rev. Wm. Bolger on the movement of the Boy Scouts. Vocal Solo Mrs. Goss Scott, Mrs. Winchcombe and W. O. Long, Piano Solo Mrs. Jas. Larsen, Recitation little Glennie Kendall which was full of mirth; Reading Charles Angle he was excellent; Vocal Solo Rev. Bolger; Reading Alice Rygge splendid; Reading John Angle particularly good; Recitation Oliver Durand and "Blindman's Buff" staying on all night wifey cannot understand welcome Hulby home?" it was spoken in a good way the genuine reality of life and married men.

A reception was given at the home of Mr. and Mrs. Alfred Larsen on Monday evening. Mrs. Percy Colthorpe, who is to be married, the evening was spent in music, an excellent selection of songs and piano solos were given all assisting in different ways to make the evening one long to remember. Mrs. Colthorpe was presented with a cut glass vase as a souvenir from the Ladies Aid and Rebekahs, all present expressed deep regards at Mr. and Mrs. Colthorpe and family leaving.

Mr. Harry Luther is in the lead with hens and pullets they are like magic to him this spring, his flock is very attractive.

The Ladies' Aid and Home Fair will give a Musical Entertainment on Friday April 15th, Mr. M.J. Hills of Medicine Hat, Electrotonist in his many popular branches, and the Tabor Sisters in their pleasing melodious performances, also from Medicine Hat will take part, the Winnifred school children will also have different lines of entertainment.

Admission 50c and 25c. children under 12 years Free.

Mr. Harry Luther is in the lead with hens and pullets they are like magic to him this spring, his flock is very attractive.

The Ladies' Aid and Home Fair will give a Musical Entertainment on Friday April 15th, Mr. M.J. Hills of Medicine Hat, Electrotonist in his many popular branches, and the Tabor Sisters in their pleasing melodious performances, also from Medicine Hat will take part, the Winnifred school children will also have different lines of entertainment.

Admission 50c and 25c. children under 12 years Free.

Mr. and Mrs. Jack Green have gone to Wilson Sliding to reside this season Mr. Green renting a farm for the year.

Mr. Geo. Schieb is shipping his outfit with Mr. Colthorpe to Cavendish, Alta, expecting to locate on a Ranch.

Mr. Ernest Hinck was in Grassy Lake hunting books this week.

R.J. Bowes of Bowditch was in Winnifred a couple of days last week.

Miss Mable Burch was in Medicine Hat having dental work done last week.

Mr. and Mrs. Shearer have moved out of the Farmer's Elevator Cottage and moved into Mr. Rapson's house.

Miss D.C. Mallonay was in Medicine Hat Friday evening, Saturday and Sunday.

Mr. and Mrs. Teddy Winchcombe will be moving back into their own residence this week vacated by Mr. Colthorpe's family.

Mr. Milton Hills of Medicine Hat was visiting his son Frank Hills on April 5th, and also called upon the Winnifred school and gave several fine readings which were highly appreciated by the scholars and teacher.

The Local U.F.A. have persuaded the F.W.A. to join their meetings, nearly everyone favours the joint meetings, the ladies are asked to come to the next meeting April 16th.

Mrs. Earl Bryant and young daughter Hazel are expected to return to Winnifred this week from Medicine Hat Hospital.

Mr. Jim Fisher is back from Inverness, Scotland to stay with his wife in Alberta again, Jim says "oh boy, Canada for me."

Mr. and Mrs. Othie Scott are down from Eureka, Montana and expect to farm and reside at Oyen, Alta.

Mr. and Mrs. P.J. DeMarie have returned from Medicine Hat and are back on the farm this week.

Scotty Penny is reported very sick Dr. Cairns of Bow Island being hastily called to attend the sufferer.

Mr. Oliver Durand gave his boy friends a real feast Tuesday evening April 5th, on turkey and chicken.

Mrs. Jules Lefevre is nursing at the home of P.J. Colthorpe mother and baby getting along splendidly.

Mr. Earl Smith has been engaged to put in Geo. Fredrickson's crop this spring.

Mr. and Mrs. Jack Green have gone to Wilson Sliding to reside this season Mr. Green renting a farm for the year.

Mr. Geo. Schieb is shipping his outfit with Mr. Colthorpe to Cavendish, Alta, expecting to locate on a Ranch.

Mr. Ernest Hinck was in Grassy Lake hunting books this week.

R.J. Bowes of Bowditch was in Winnifred a couple of days last week.

Miss Mable Burch was in Medicine Hat having dental work done last week.

Mr. and Mrs. Shearer have moved out of the Farmer's Elevator Cottage and moved into Mr. Rapson's house.

Miss D.C. Mallonay was in Medicine Hat Friday evening, Saturday and Sunday.

The Weather April 1921

Friday 8th. Warmer

Saturday 9th. Cold wind

Sunday 10th. Warmer

Monday 11th. Bright and sunny

Tuesday 12th. Sunny, cold wind

Wednesday 13th. Warm and sunny

Thursday 14th. Bright, cold wind

Friday 15th. Bright, cold rain in afternoon

The presence of Mr. Hatfield the Rain-maker seems to cause rain to fall as we had a little rain on April 14th and Mr. Hatfield doesn't start operations until April 15th.

THE COMING ELECTION ARE YOU PREPARED FOR IT?

Continued from front page

forces that was advancing so dominantly to the overthrow of some of the privileges which he and his kind so patricially (?) cherish. It will be noticeable that the whole assault does not touch the political issues before the farmers. It is a sign of the times that farmers will do well to take notice of. An election may take place at any time; the government may dissolve this session or it may not. Whether it does or does not dissolve should make no difference to us, we should be prepared for it when it does come. Do not let us lie back waiting for redistribution that cannot take place in any case before the fall, and perhaps not then. Now is the time to prepare and when the time comes for balloting let us support the farmers' candidate no matter who he is or whether we like him or not.

Mud slinging has started, and

through the press and by pamphlet and on platform, those seeking to retain special privileges will carry on their campaign seeking to cloud the issue by making charges similar to those made by the worthy senator Mr. Pope. Farmers, do not let us be stampeded by any side stepping issue brought up only to divert the votes of the unthinking. Let us stand by the man who stands solidly and unshaken on the platform of the "National Progressive Party." Let no amount of glib talk and dark innuendos turn us from our course but let us go on looking neither to the right or left but always keeping our eyes fixed on the goal that will give us a square deal and overthrow special privilege.

Mr. Oliver Durand gave his boy friends a real feast Tuesday evening April 5th, on turkey and chicken.

Mrs. Jules Lefevre is nursing at the home of P.J. Colthorpe mother and baby getting along splendidly.

Mr. Earl Smith has been engaged to put in Geo. Fredrickson's crop this spring.

Mr. and Mrs. Jack Green have gone to Wilson Sliding to reside this season Mr. Green renting a farm for the year.

Mr. Geo. Schieb is shipping his outfit with Mr. Colthorpe to Cavendish, Alta, expecting to locate on a Ranch.

Success Attends Plan For Placing Soldier Settlers on the Land

Practically every country, implicated in the machinations of the Great War, and experiencing the same problems in the aftermath, has paid warm tribute to the generous manner in which Canada treated her returned warriors and the effective measures she devised to assist them in finding a permanent in civil life. In common with other belligerent nations, Canada was faced with the problem of rehabilitating a huge army alienated, after years of hardship and contention with primitive conditions, from their pre-existent, and facing an uncertain future with vastly differing ideals and an entirely changed outlook upon life.

It was a wise procedure, both for the state and the individual soldier, to encourage them to go to the land, and to assist soldier-settlers in such a manner as to become producers almost immediately instead of undergoing the hardships and years of slim revenue, which often are the lot of the soldier. That these years of war had turned the minds of many towards the land is indicated by the responses to questionnaires distributed to soldiers shortly after their desire to take up farming had entered their thoughts. In Saskatchewan, for instance, where there were only 172,218 of these who, previous to their enlistment, had been so employed, only 4,175 men in the Canadian army, who had been granted furloughs, returned to their calling in safety after the war. The subsidized, assisted project of the Soldier Settlement Board has proved immensely popular, as witness the fact that in the two years which have elapsed since the acceptance of 172,000 soldiers who had been in the service, 50,000 returned soldiers have made application for the purpose of qualifying, 42,000 have been declared qualified whilst approximately 20,000 have been awaiting examination, amounting to more than \$80,000,000.

Alberta has received by far the largest number of these settlers, followed by Saskatchewan, Manitoba and British Columbia. Of the total, 21,000 live per capita in Alberta, and have landed on land west of the Great Lakes, the figures by provinces being: Alberta, 5,710; Saskatchewan, 4,872; Manitoba, 3,269; British Columbia, 2,941; Ontario, 1,403; New Brunswick, 1,162; Quebec, 1,032; Nova Scotia, 355; Prince Edward Island, 302.

The loans approved by provinces are: Alberta, \$22,289,021; Saskatchewan, \$19,842,091; Manitoba, \$13,267-826; British Columbia, \$12,587,021; Ontario, \$10,646,042; Quebec, \$1,899-434; New Brunswick, \$1,469,701; Nova Scotia, \$1,287,928; Prince Edward Island, \$814,947.

Canadian soldiers have cooperated in every way to make their rehabilitation by way of the land successful, and have plunged heartily into the pursuit of agriculture once they had undertaken it, is manifested in their overwhelming success as reported by inspectors of the Soldier Settlement Board. Experienced agriculturists, who periodically visit the farms operated by soldiers who have obtained loans from the board, have stated that ninety-five per cent are making good and proving successful, and that, furthermore, of the remaining five per cent, the majority are failing not from indolence, poor farming, or lack of personal qualities, but owing to physical hindrance in the resumption of their war disabilities. The board reports that, in the harvest of 1920, 1,200 crop, respondents on loans are being made very much ahead of the date specified. Though the payments extend over a period of twenty-five years, and the board has been in operation a little over a year, there are nearly 3,000 men, as a result of their successful farming operations, been able to pay off their total indebtedness.

From the national standpoint, and viewing in the light of its contribution to agricultural production, the success of the Soldier Settlement Board's scheme is of prime importance to Canada. To date, it has resulted in the location of 200,000 men on the land under the most favorable conditions, both economic and social. These men have, in the form of soldier-grant entries, received 2,000,000 acres, and by purchase or through the exercise of their civilian right, secured an additional 110,000,000, or a total of 3,100,000 acres. It is also to be remembered that, so far less than one-half of those who have qualified have been placed. Estimating the yield on this land at 14 bushels per acre, this year's average over the Dominion

ion, these soldier lands are responsible for an additional 45,000,000 bushels on Canada's wheat crop.

Marquis Wheat Leads

Best Wheat Does Not Always Make Highest Quality Bread.

That the best looking wheat does not always make the best bread was again demonstrated this year when the returns were received at the University of Manitoba, and giving the results of the baking and milling competition of the prince winning wheat at the Provincial Seed, Fair held at the University in January. W. J. E. Warren, of Bekebe, who was awarded the grand prize for Marquis wheat from prince, entered his Marquis Standing Grain competition, won first honors in the milling and baking test with a loaf which was practically perfect, while Kenneth Canfield, of Shellbrook, who won first honors in the Prince's competition, had a loaf which he had handled it carelessly and irresponsibly. His child who did not understand the value of it. In London he often applied to his secretary for money to pay car fares, and when it was given him he would always say, "I have as much gold and silver as is worth hold and, without counting it, would drop it into one of his coat pockets. When he had to pay for his cab he would take a coin out of his pocket and give it to the cabby without looking at it. If it happened to be a gold piece, the cabby would touch his cap and drive away very pleased.

He had little attention to dress, and never seemed to know what he was wearing. The last time he came to the Prince's competition, he had a gold piece that was loose and uncomfortable. He would not camp out in the cold if a jam in the place selected.

Marquis wheat again led the field in the baking and milling test, Seager Warren, of Bekebe, who was awarded the grand prize for Marquis wheat in 1920, and David Bros, of Perdue, fourth place all with Marquis wheat. George S. Canfield, of Wild Rose, who won first honors for Red Fife at the Prince's competition, had a loaf which was excellent in the baking, and milling test, and the Ruby wheat for which Mr. Canfield won first place for any other variety of spring wheat, was graded 265, or lowest of all in the milling and baking contest.

Many War Books

French War Museum Has More Than 100,000 Books Written About the War.

The output of printed matter relating to the war was known to be prodigious, but the actual figures stagger an imagination prepared for the task. The French War Museum, at Paris, has provided space to accommodate more than 100,000 books written about the war and has devoted two and a half miles of shelves to the preservation of newspapers and periodicals bearing on it.

Can all that has been written about the Great War, British statistics, or about Napoleonic Wars, begin to match this production of World War literature in size and a half years? And the presses are still working overtime to supply the eager public with paper and ink to overlay the vital facts which it will be the duty of the historian to distill and compile for the lasting reading of posterity. Who can envy the task of this担当者?

Major General Sir Herbert Kitchener, or the late Sir Arthur Currie, and many others are even more employed in arranging the volumes. Who but a superhistorian can possibly do more than read the titles? Perhaps nature will provide another, G. W. Wells for the job, but as ordinary mortals will get lost in this giddiness of printed words.—The N.Y. World.

The Panama Route

Closed Season in Connection With Pacific Navigation.

There are now three railway lines from the prairie provinces through the Rocky Mountains, so that the land transportation facilities should be equal to the public demand. The Pacific navigation, such as in the case of Atlantic shipments adds so much to the length of land carriage in the winter months. The ocean voyage to the Pacific route is, of course, the shortest, but the cost of the ocean transport is cheaper than land, and miles do not count for anything. The possibility of the route having been, shown, it is for the British Caribbean to the west coast. Routes are thus consequent rulers there, and to go to the railroads of using them.—Montreal Gazette.

House Appointed British Chancellor.

Sir Robert S. Horne, president of the Board of Trade, has been appointed chancellor of the exchequer in succession to J. Austin Chamberlain. Stanley Baldwin, prime minister, is to the treasury will be the new president of the Board of Trade.

H.C.L. in Sydney, Nova Scotia.

The cost of living is higher in Sydney than in any other city in Canada, as the admission made by E. M. G. Quirk, special investigator for the Federal Department of Labor, after making a survey of the local situation for the Dominion authorities.

The president of the French Republic is provided with an official aeroplane.

Millionaire Was Often Very Short of Cash

Some Sidelights on the Generous Character of Cecil Rhodes.

Although his income was a great deal more than one million dollars a year, the man who became the empire builder, spent very little on himself, most of his money being privately given with reckless generosity to people who he thought needed it more than he did.

His expenditure was overdrawn most of the time, and often he did not have a penny in his pocket, writes H. J. Hays Hammond, who knew him well.

His securities were commonly tucked away in pockets of dimmed coal or in obscure pigeonholes. When, for his own sake, his secretary hid his checkbook, he issued gift checks on half sheets of note paper, sometimes signing them in pencil.

When he had to money he handled it carelessly and irresponsibly. His child who did not understand the value of it. In London he often applied to his secretary for money to pay car fares, and when it was given him he would always say, "I have as much gold and silver as is worth hold and, without counting it, would drop it into one of his coat pockets.

When he had to pay for his cab he would take a coin out of his pocket and give it to the cabby without looking at it. If it happened to be a gold piece, the cabby would touch his cap and drive away very pleased.

He had little attention to dress, and never seemed to know what he was wearing. The last time he came to the Prince's competition, he had a gold piece that was loose and uncomfortable. He would not camp out in the cold if a jam in the place selected.

Marquis wheat again led the field in the baking and milling test, Seager Warren, of Bekebe, who was awarded the grand prize for Marquis wheat in 1920, and David Bros, of Perdue, fourth place all with Marquis wheat. George S. Canfield, of Wild Rose, who won first honors for Red Fife at the Prince's competition, had a loaf which was excellent in the baking, and milling test, and the Ruby wheat for which Mr. Canfield won first place for any other variety of spring wheat, was graded 265, or lowest of all in the milling and baking contest.

Marquis wheat again led the field in the baking and milling test, Seager Warren, of Bekebe, who was awarded the grand prize for Marquis wheat in 1920, and David Bros, of Perdue, fourth place all with Marquis wheat. George S. Dorkin patted his cousin on the shoulder. "Good old Jimmy," he said. "He's a joker, but he's always funny, in some ways. When we were kids, god used to play marbles with him, and he'd always win. He might cheat, and I'll say anything to him right now," he laughed, turning to Tim. "He's a joker, and he's always cheated me out of an inheritance."

"By God, I have, for that matter, received a good deal of my inheritance out of the money, for five years, and how the deuce I've ever going to pay you?"

"Jimmy, listen," Dorkin pushed

Highway down into a seat. "You know I'm a lame duck, and I'm

now known my lamented aunt left me

that money; knew, also, that it fell

into more appropriate hands."

"The fact of the matter is, Jimmy," he explained. "I got the

money, and I spent it all. I had al-

ready seen the day. It was mighty

gratifying to let you have it, but I

didn't want to hear any about it," as

Tim might open his mouth to say.

"I've got it, and you're not

going to deprive me of a pleasure I've

enjoyed for five years. So that sets

the record straight."

He turned towards the door; then

his eyes sought the eyes of Timber-

ley, and the two met in the new mirror and then went.

Haight straightened up. He tried

to smile and failed. At last he said

it again.

"Tim," he said, "it's all damned

queer, isn't it? I'm going to be big,

in every way, to fit this world of his.

He sank lower in his chair, and

Timberley, the man is my boy,

and you and trying to get you shot,

I come here to find the Son of

God, and the big man takes the work out of his hands. It makes me

feel glad that I failed to get what

I wanted."

He sat stooped over in his seat,

"Tim," he said softly, "I meet you,

Tim, and—well, you never heard of

him," he said again.

"Timberley, he's a joker, he re-

plied, his voice a little unsteady,

"he's what everybody says is: some

thing."

Haight nodded. "I reckon," he re-

turned, though speechless, "I reckon I'd rather go to this world of his."

He sank lower in his chair, and

Timberley, the man is my boy,

and you and trying to get you shot,

I come here to find the Son of

God, and the big man takes the work out of his hands. It makes me

feel glad that I failed to get what

I wanted."

"And did you find out that you

were going to be big?" he asked.

"Why, something showed me that I

couldn't just think unworthy

of you, and I was going to be big,

so I went up here. Then, quite by

accident, I learned that Dorkin was

the man I wanted to work for, and

that I wanted to work for him, to help

him, but the revelation gave me a

surprise, for I had not known for a long time; so I

stared, Jimmy, and tried to believe,"

"I'm not a noddle, Tim, I'm a

believer. Well, you do, believe,"

Tim, and I began to hope that to

Tim, too. "Now," he said, raising

and shaking him, "I'll be out

outside, or I'll cry," and he sprang

out of the room.

Timberley, he's a joker, he re-

plied, and his face on her shoulder,

**News of the Past and
the Future
South of Burdett.****From our own Correspondent**

There is an old saying "Spring time is ring time" but it seems to be true all the time. I was mentioning the marriage of two couples last week and now there is an other married couple in Mr. and Mrs. Lars. Mygland who are following get in line, don't shure, The neighbours were wishing the happy couple good luck in their married life and a bumper crop this year. As to the last clause of the wish I like to mention it was not selfish at all on the part of the wishes, as somebody may think because the wishes are all married. They have been young ones and know it costs some money to get married especially now-a-days, as a bumper crop for a couple of years will fit the young couple very good; besides that there are always plenty of expenses.

Mr. John Huisman of Medicine Hat is visiting his brother-in-law Mr. L. Master south of Burdett

Mr. and Mrs. Lars. Johnson paid a visit to Mr. and Mrs. S. Stetina last Sunday. Edna and Dagny two daughters of Mr. N.H. Stetina came at the same time to see Mike Stetina who was getting along in this nice spring weather.

The two eldest boys of Mr. N.H. Stetina went over to Mr. Lars. Johnson's place on Sunday afternoon to see their playmate Louis, the youngest son of Mr. Johnson.

A band of thirty musicians marched up to Mr. Lars. Mygland's residence last Friday to bring the young couple the usual serenade. There was quite a little difference in the kind of instruments; some had empty tin cans others old leaky pails (new ones are no expensive) and still some others were carrying play-harmonicas hanging with a rope round their neck, so they could be easier worked with two harmonicas at the same time.

After the Director had lined up the band in an orderly way the Music commenced at once and could be heard miles and miles away. The Music was not very harmonious but there was noise enough to take the necessary attention. It took a good deal of time to wake up Mr. and Mrs. Mygland, as Mr. Mygland had been so smart as to buy tins of cotton waste, one pound for each ear, so they never heard the Music at all. Had it not been that the house was shaking on its foundations through all the noise which woke up the honored couple, the band would never have been observed, then they were invited to come inside were they were served in a very nice manner with coffee and cake. As I told before Mr. and Mrs. Mygland had not heard anything of the nice Music, so one of them in the suggestion that the Band should show them a little piece inside the house, so the director refuted that, and I quite agree with him, when he told them there was too much danger of bursting the window panes. The happy couple must be highly esteemed by the musicians as it was a very stormy night and they had been there already one night before when the storm was still worse. Some people don't appreciate Good Music at all, as a listener on one of surrounding farms told me; some of the instruments were entirely out of tune and he preferred the howling of a dozen coyotes alternately with that of a few dogs on different farms much better.

Another chivaree was to be expected soon, to come from the south, much farther south than to call it south of Burdett. It is so far south that it can be called about just as well north of Burdett. Well whenever I hear anything about it I will let you know the results and the quality of the Music Mr. Editor.

Everyone would think the happy couple would be left alone after they had gone through such a trial, but there was no rest, for them yet, as another party, this time more than fifty persons drove up to their place last Friday evening. Was the band expected to come? this party was entirely unexpected it was a real surprise. As the party came about sunset time everyone took something along in the form of cream, cake, cookies and sandwiches, afterwards I am told that there was so much food together that a four horse team would not be able to pull it. I don't like such an exaggeration, people should stay as near as possible by the truth: I know for sure good hearty man could pack it easily.

After the band had been with the band and the wedding present included, and it would not take more than a fairly good sized team to get it.

The party was heartily welcomed

by the host and hostess and the wedding present (a very nice Dinner Set) was received with much appreciation, with the help of some of the ladies the supper was soon prepared and a large part of the food consumed;

Very healthy farmers can do a good deal of work on a farm every day, but don't forget they can do something else to the table. That all had a good time can be proved best by telling that a second meal was served in the early morning hours.

Mr. G. Jacobson made a nice speech and advised all the bachelors there to hurry up and follow the same way as Mr. and Mrs. Mygland were going.

Departing everyone was satisfied and all are looking for some other surprise parties now.

Master J. Johnson was in Burdett last Friday to see the nice play that was going on there, and stayed the night over at the Peode's place three miles south of the town.

The Ballman Local U. F. A. decided at their last meeting to arrange a Picnic this coming summer.

The place and time of the picnic will be discussed later on, due notice of which will appear in the "Bow Island Review".

Next week an Article on Soil Drifting will appear, this we think will be of special interest to many of our readers who are Farmers.

From our own Correspondent

Mr. John Madill returned from Medicine Hat last Monday.

Miss Esther Elford arrived home last Monday from Medicine Hat.

Mr. J. D. Madill and Mr. F. Elford went to Burdett last Monday in Mr. Madill's car to meet John and Bert Madill and Esther Elford, who came in the afternoon train, but owing to the bad roads they were forced to walk about two miles, for their car broke down and they walked as far as Mr. F. E. Elford's, there they had a late dinner.

Mr. and Mrs. Abe Brown, of Burdett, were at the home of Mrs. G. W. Lane for dinner last Sunday. They remained until Monday morning, before they returned home.

Mr. and Mrs. J. D. Madill and family spent last Sunday evening in Mrs. T. W. Lane's.

Mr. Reuben Lane went to Burdett last Monday and has not returned yet. He is visiting friends at and around Burdett.

Mr. Sam Elford went to Lethbridge last Thursday and returned Saturday evening.

Mr. and Mrs. Jim Shearer went to Medicine Hat last Monday to visit Mr. Shearer's parents at Redcliffe.

They returned last Friday. Mr. J. Shearer brought them home Friday afternoon.
